

**75-ROUND DRUM MAGAZINE
FOR 7.62X39MM CARTRIDGE**

GENERAL INTRODUCTION

This 75-round drum magazine is for 7.62x39mm Cartridges only. It is used as the feeding device for the NHM 90 and NHM 91 rifles.

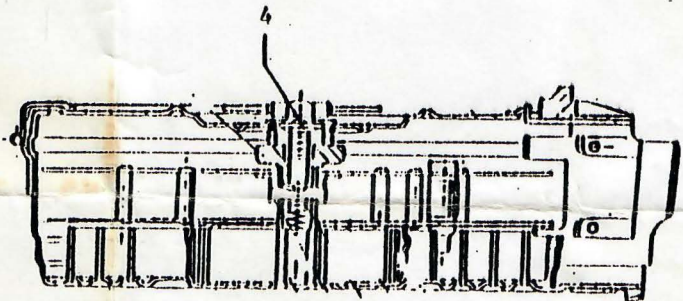

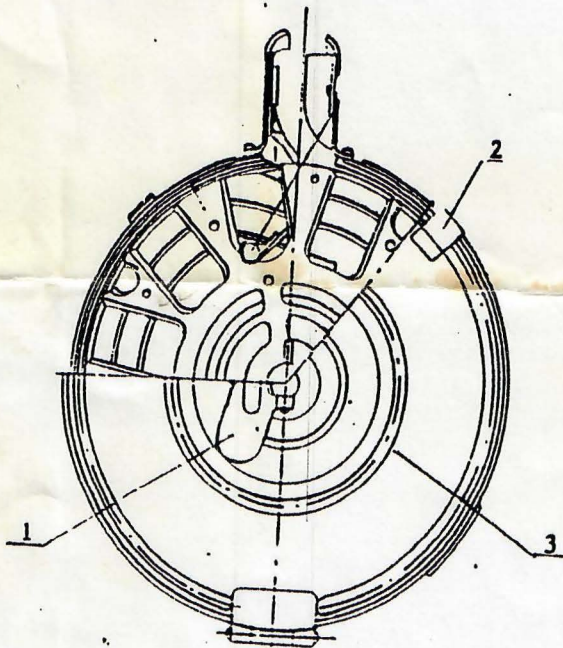

CAPACITY: 75 rounds

DIMENSIONS: 194mm (length) x 157mm (width) x 75mm (height)

Weight of empty drum magazine: 0.94kg

HOW TO LOAD THE DRUM MAGAZINE

To load, push the two catches (2) down this will allow you to open the lid (3). Step two, turn the cartridge clockwise, while pushing the center spring tension releaser (4). Keep turning this until it stops. Step three, load the ammunition with the base facing up. Load one slot after another till all the slots are fully loaded. There should be no space left between the spring tension releaser and the cartridges. After loading the ammunition, close the lid, latch the two catches and wind up the coil spring by turning the key attached to the lid four or five times clockwise. The magazine is now ready to be used.

1. KEY
2. CATCHES
3. LID
4. SPRING TENSION RELEASER

HOW TO UNLOAD THE DRUM MAGAZINE

First, open the lid by pushing the catches down. Second, press the spring tension releaser down, and then all the rounds in the drum magazine can be easily tipped out or taken out.

HOW TO CLEAN THE DRUM MAGAZINE

Open the lid by pushing down the catches. Clean all foreign objects out of the inside by blowing them out with an air compressor or remove them with a vacuum.
